**Line Defaults**

If you have multiple lines and would like your corresponding worktag (Program, Grant, Gift or Project) to be applied to each line on the Review and Submit page, then scroll to bottom of the page and select Use Default Worktags.

If a split is needed, then Select Use Default Splits.

Click **Next**

**Review and Submit Tab**

Error messages will appear and will remain even after the fields are corrected. However, they will not prevent you from submitting the requisition unless there is a true error in place.

Scroll down to your **Goods** line(s) and fill in the following:

1. **Spend category** – fill in line by line.
2. **Corresponding Worktag (Program, Grant, Gift or Project)** – fill in line by line only if the Line Defaults page was not previously used. **TIP** – worktag field is located past the spend category field on the right hand side of the page.
12. Click **Submit**. The name of the pending approver will appear.
